

# PRODUCT SAFETY DATA SHEET

## **Section I - Product Identification**

Product Name: LTO Ultrium Generation 4 data cartridge (800GB)

## **Section II - Component Information** > 1.0% w/w

P-case: Polypropylene

Shell: Polycarbonate

Reel: Polycarbonate with 10% glass fiber

Reel Lock: Polyoxymethylene (POM)

Door: Polycarbonate

Magnetic Tape: Polyethylenenaphtahalate(PEN)/Polyvinyl Chloride (PVC)/ Iron

Insert Plate: Iron

## **Section III - Health Hazard**

This product does not contain hazardous components and there are no significant health problems for handling and use under normal conditions.

## **Section IV - Flammability and Fire Fighting Instruction**

Flammability: combustible (non-volatile)

Combustion by-product: Mainly carbon dioxide, others are carbon monoxide, nitrogen oxide, hydrogen chloride. The exact composition depends on conditions of combustion.
