## Semperguard<sup>®</sup> Style – as of now available in 100 pcs boxes and with new article numbers

With its elegant colour black, the **Semperguard<sup>®</sup> Style** lives up to its name and does not only combine aesthetics and style, but also reflects professionalism. As of now, the **Semperguard<sup>®</sup> Style** is available in dispenser boxes of **100 pcs** only.

## semperguard<sup>®</sup> Style

### *... the black nitrile*

- trend colour black
- excellent elasticity
- particularly suitable for »front-end applications«

## Positioning and Applications

The black disposable protective glove made from Nitrile Butadiene Rubber is particularly popular in front-end applications in the gastronomy, beauty and body art sector. The Dual-Labeling offers an additional benefit for the user, especially since the **Semperguard<sup>®</sup> Style** meets the requirements for medical gloves in accordance with CE Class I and thus also meets the medical demands in the area of tattooing and piercing. The skin-friendly nitrile material is very resilient, feels pleasantly soft, and is also free from phthalates/softeners and allergenic latex proteins.
