# PROLITE™LINK

SUN-FLEX®

PRODUCTINFORMATION

PROLITE™LINK is a luminaire in the newly developed PROLITE™ series from SUN-FLEX®. The luminaires are characterized by great flexibility in settings, modern and unique design with amazing light properties.

Using the spring-balanced technology, you can bend and twist the luminaire the way you want to get it perfect for your individual settings. The choice of material and technical components give PROLITE™LINK superb light qualities with contrast enhancing properties.

Thanks to the LGP technology, exceptionally good light scattering is created, which gives a large lightenhanced surface. The PROLITE™LINK is possible to dim in three steps and also to adjust in color temperature from warm to colder light

SPECIFICATIONS

- Light source: Samsung LED
- Technology: LGP (Light Guide Panel)
- Color: Black or white
- Consumption: 9 watt
- Brightness (Lux): 1500
- Color temperature (Kelvin) 2700-7000
- Dimmer: 10%, 60%, 100%
- CRI (Color Rendering Index): >90
- USB port: Yes, 2,0 A
- Display with touch functions: Yes
- Glare free: Yes
- Flicker free: Yes
- Adjustment of fixture: Infinite
- Total lenght of fixture: 995 mm.
- Tablebase, Ø: 230 mm.
- Tableclamp, opening: 50 mm.
- Packaging: Single, transportbox of 6 units.

Art.no.:
- 108200: PROLITE™LINK, white (GTIN13: 7350042901289)
- 108205: PROLITE™LINK, black (GTIN13: 7350042901296)

Products are shipped with both freestanding tablebase and tableclamp.

PROLITE ™LINK, black with tablebase

Has built-in light emitting diodes
