

Sterisol SUPER Hand Cleanser

Properties

SUPER is a gentle hand cleanser which causes no damage to the skin's normal barrier function. Containing vegetable oils, it dissolves dirt while re-fattening the skin. SUPER also incorporates maize as a friction agent and is highly effective against stubborn dirt. 89% of the contents of SUPER Hand Cleanser are of natural origin, (calculated according to the Natural Origin Index from ISO16128).

The product is gentle thanks to the following:

- No preservatives
- No colourants
- No solvents
- Ca pH 7

Fields of application

SUPER Hand Cleanser is specially formulated for dirty environments where people are exposed to oily, fatty and dry dirt and need an effective, gentle product to clean their hands. Must be used with dispenser, otherwise leakage may occur.

Tests

Consumer tests performed in June – July 2018 with excellent results.

Environment

Biodegradable raw materials. Low packaging weight. One 2,500 ml bag contains just 34 g of plastic material. A discharge rate of around 99% means less waste.

Content (3486, 3485)
