

TECHNICAL DATA SHEET

1013825 - PE-Stretch-Film

Article number 1013825

Technical specifications

Article: minirolls, 100 mm x 150 m - 20 my

Material: LLDPE = Linear Low Density Polyethylene

Production: Flat-foil-extrusion

Quality: 3-layer-cast-film

Spec. weight: approx. 0,92 g/cm²

Recycling: without problems, 100% recyclable

Break stretching: 400 % lengthwise
ASTM D 882-88: 750 % crosswise

Tearing strength: 35 N/mm² lengthwise
ASTM D 882-88: 22 N/mm² crosswise

Dart-Drop: 110 g
ASTM D 1709

Resolution of Breakthrough: 2,1 N

Core diameter: 38 mm

Core length: 140 mm

pallet-units: 40 rolls/carton, 1.200 rolls/palette

The above mentioned data is a product of research under perfect conditions and can be different in practical use.
